Schulnik's array of unique artwork including clay animations, paintings, sculptures and even films, all simultaneously haunting and beautiful, will be showcased at the Laguna Art Museum. Some of her films that will be at the exhibit include "Hobo Clown" (2008), "Forest" (2009) and "Mound" (2011). Influenced by the painter James Ensor (1860-1949), Schulnik's exhibit is composed of paintings that explore society's fringes. Allison Schulnik's work is presented by the ex·pose arts program that helps support contemporary artists in all artistic mediums.
